How can Vitalità's activities positively impact the health and well-being of the older adults?

After the engagement in the workshops participants report:

- better health habits
- more motivation to perform daily routine tasks
- higher levels of social participation
- a greater sense of accomplishment and belonging
How can Vitalità's activities positively impact the health and well-being of the older adults?
How can Vitalità's activities positively impact the health and well-being of the older adults?

“It was a unique experience. I lived without a clear purpose, tending to depression and alienating myself from society. The integration with the reading group, the readings we did, reversed this situation. Today I feel with the right objective and more integrated with society. It is very important for life.”

Jaime Tadeu Zoppi, 71y

“After two years of confinement due to the pandemic, it gives me great pleasure to be able to attend some of Vitalità's workshops in person. These encounters bring me joy, learning, health and new friendships. I hope this project continues for a long time and that it continues to bring learning and well-being to those 60+.”

Márcia Hohne de Carvalho, 68y
